PROFILE

I am a motivated student pursuing a Bachelors Degree in Computing with a focus in Business Intelligence who aspires to carve a career path as a Business Intelligence Analyst. My area of interest lies in the relationship between data and business analytics, where I can use my knowledge of Python, SQL Server, C#, HTML, CSS, JavaScript, Database Administration, Project Management, Linear Programming and Machine Learning to extract valuable information and drive informed decisions. I am refining my skills and aim to become proficient in Tableau, Power BI and R by the end of my studies this year. I intend to use my technological expertise and analytical skills to accelerate organisational growth and enhance decision-making processes, all while maintaining a constant pursuit of excellence.
